WHAT IS MEANT BY AN 'ACCELERATED' DEGREE?

2

At SAE, our 2 year degrees are validated by Middlesex University and are equivalent to traditional 3 year degrees. On most 3 year degree courses you would study 2 semesters or terms in a year, which is equal to 6 semesters over 3 years. Your accelerated degree will be fast-tracked and you will study 6 semesters (known as 'trimesters') over 2 years.

WHAT ARE THE BENEFITS?

Taking a degree over 2 years has many benefits for you:

You can finish your degree and follow your dream career more quickly

You save money on living costs and tuition fees by not paying for a third year

You begin studies that count towards your final degree classification immediately, whereas on some 3 year degree courses the first year does not count towards the final degree classification

Your dedication to complete a 2 year degree will be on display to future employers

HOW CAN I **PREPARE TO STUDY** ON AN ACCELERATED DEGREE?

Accelerated degrees by their nature do come with challenges, which if you plan for, can make your experience more enjoyable.

You will need to be good at planning and keeping up with the fast pace of the degree

Your holidays are likely to be shorter than a 3 year degree, as more teaching time is contained within each trimester

SAE has very helpful staff including your lecturers, Campus Support Technicians (CSTs) and Student Experience Officers (SEOs) on hand to help you throughout your course.

VOCATIONAL/ACADEMIC DIMENSIONS OF THE COURSE

Courses at SAE provide high-level technical skills tailored to careers in industry. You will have access to state of the art equipment. However, it is important to remember that the courses are academic programmes awarded by Middlesex University, and therefore involve researching and writing essays, and sitting exams in some cases. These academic skills are equally important as your vocational skills for your future career.

We will support you every step of the way in completing both the vocational and academic aspects of the course.

In partnership with

**Middlesex
University
London**

This programme was developed and is delivered and assessed by SAE Institute, awarded by and quality assured by Middlesex University.
